Your letter from 3 December 1936

Neuhaldensleben, 5 December 1936. Telefone 590

Your daughter successfully underwent infertility surgery. Physically, she is well. Mentally, however, she is still very withdrawn. She doesn't show any particular interest for surrounding. It is also almost impossible to persuade her to do work. There are no medical objections to a visit at the moment.

Signed: MD Metz.
